MYTEE HISTORY

Who We Are

Ever since we started out in Wooster, Ohio, the heart of the Amish County, we have made a commitment to do right by the trucking community.

As we've grown, we have never cut corners, through launching our website in 2007, and moving our headquarters to Aurora, Ohio in 2014, we are dedicated to quality products and keeping the cost affordable.

Our current facility has over 250,000 square feet of warehouse space and light manufacturing on site as well as off site storage. Here, we can machine-test all our 6000+ in-stock products immediately and in-person, making sure everything we sell meets the exacting standards of the heavy hauler. Our aim of the expansion has been to keep quality control at the forefront and have critical supplies be readily available for our customers.

Helping you HAUL SAFE and EARN MORE

Here at Mytee Products, we believe that truckers are the lifeblood of America. You run supplies we need to live and thrive from the east to the west coast. We know flatbed trucking can be dangerous, you take on the challenge of rigging and hauling serious loads.

When we say HAUL SAFE, we mean:

- ✓ We innovate in-house to make tarps lighter
- ✓ Binders easier to use
- ✓ Straps easier to secure

When we say EARN MORE, we mean:

- ✓ By cutting out the middle man, you save money
- ✓ By choosing resilient products, you'll save money buying replacements less!

EPDM vs. Natural Rubber

EPDM is the best choice for securing tarps in hot weather. Natural Rubber works very well in most environments, but it is the best choice for winter use.

Anchor Shackles

Standard Shackles

Mytee Shackles

Double Rust Protection

The Mytee Products Shackle is first coated in **Electro-Galvanized metal**, then another layer of powder coating. The Electro-Galvanized coating guarantees that when the powder coating wears off, the shackle will not rust like other shackles.
